

Please do not allow LPFM stations to take priority over FM stations like KLOVE 88.5. Klove is the only station my family listens to and is able to get the family oriented wholesome programming that they provide. It would be a huge loss to our community to loss K-love. Please continue to allow them to operate. They promote the kind of values that this community and country needs. Their programming is a blessing for parents who want a safe station for their children to listen too as well as have an encouraging source of music for the parents as well.
